- USB touch interface
- Dual signal interface with VGA & DVI
- Integrated bracket for easy installation
- IPS technology with extra wide viewing angle with no color inversion (178/178° viewing angle)

FCC CE

Introduction

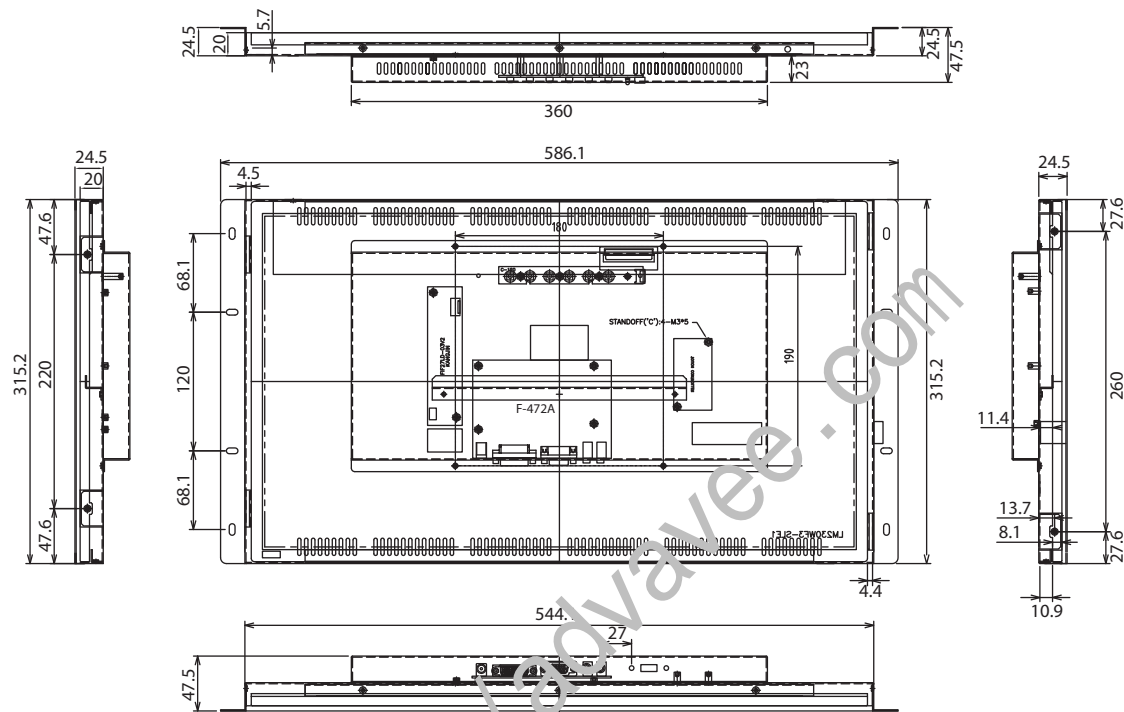

The Advantech 96LCDK23-1 Open Frame Touch Monitor series is specially designed for gaming applications. It can be used in slot machines, lottery terminals and kiosks where there is a need for the best looking large screen display for the user interface. The integrated side mount brackets bring the benefit of easy installation and provide flexibility for different mounting. Its IPS (in-plane switching) technology provides extra wide viewing angle with no color inversion (178/178° viewing angle). The 96LCDK23-1 features the 3M™ surface capacitive touch technology providing the most accurate and secure touch and eliminates any false touch sensing. Overall the 96LCDK23-1 is the ideal display solution for your next generation gaming machine design.
